Additional Information

All prices are starting rates and may vary depending on the individual case. Bank Holiday visiting-care starting rates shown are 1.5 times the weekday starting rates. Evening care, specialist care, double-handed visits, break cover and bespoke packages are quoted separately.

Continuous 24-hour active care is different from live-in care and is quoted individually according to staffing and support needs.

NHS Continuing Healthcare (CHC) and local-authority-funded packages are assessed and priced separately under the applicable commissioning arrangements. The rates above are indicative published starting fees, not confirmed NHS or Council contract rates.

Annual Fee Review

Infinite Care Network reviews its fees annually in April to reflect changes in staffing costs, statutory employment requirements, inflation and operating expenses. Any changes to existing clients' fees will be communicated in advance in accordance with their care agreements.
