

## Care Packages and Costs

There are many benefits to staying in familiar surroundings, not only because your home comforts surround you, but also because it means your house won't be sold to pay for care costs, and you may be eligible for funding benefits you wouldn't get were you to move into residential care.

### HOURLY CARE COSTS

Our in-home care provides a variety of services, ranging from 30-minute visits to hourly, occasional, respite, and daily ongoing care.

### You will receive care in the privacy of your own home and our services include:

- Companionship and social visits
- Outings and appointment
- Personal care
- Food preparation
- Medication management
- Palliative care
- Support for mental health care
- Physical disabilities
- Caring for adults
- Overnight care

Through to specialist care including end of life care.

Our visits range from a minimum of half an hour to an hour or more. Our care team charges 'per hour' rates, which vary based on your needs, the time and day of the visit, and the duration of each visit.

<b>Half-hour Visits: £13.83</b>	<b>One Hour Visit : £24.34</b>
<b>45 min visits: £18.83</b>	<b>Per Hour visits : £24.34</b>

Hourly and half-hourly care visits offer you reassurance and support as and when you need it, which means the rest of the time, you'll be able to carry on living the life you love in comfortable surroundings.

Before deciding on what is best for you, we will discuss your needs, arrange a meeting, draw up a care plan, and set a date to start.
