

Pricing

Our hourly rates start from £21, with final pricing negotiated based on assessed care needs, location, and individual client preferences. We understand that every client's situation is unique, so we take the time to discuss and agree a fair price that reflects the level of support required.

For companionship services, pricing depends on the specific nature of support needed — for example, accompanying a client on holiday, or providing companionship during pet care and other personal activities. We tailor these arrangements to suit each client's lifestyle and circumstances.

We are always happy to discuss pricing openly, and we carefully consider each client's individual circumstances and needs when agreeing costs, ensuring our rates remain fair, transparent, and appropriate
